Servings Per Container: 120

	Amount	%Daily Value
Magnesium (as Magnesium Glycinate/Lysinate & DiMagnesium Malate)	125 mg	31%

Other ingredients: cellulose, ascorbyl palmitate, magnesium stearate.

DISCUSSION

- Magnesium is the second most abundant mineral in the body. It is involved in over 200 enzymatic processes, including the production ATP for energy and optimal rhythmic function of cardiac and vascular muscle.
- Mag Mal provides 350mg of Malic Acid per capsule as a complement to magnesium in the relief of pain associated with muscle spasm and cramping.
- Magnesium is also essential for supporting optimal bone density, as well as maintenance of blood glucose levels.
- Mag Mal is 3rd Opinion Inc's proprietary blend of Albion's patented form of Magnesium Chelazome, a true chelated magnesium, and the recently introduced, innovative DiMagnesium Malate (patent pending). Albion is the only company that has researched, developed and patented true magnesium chelates.
- This fully reacted magnesium mineral amino acid chelate and complex possesses the natural absorption characteristics of minerals present in food.
