Lawn Maintenance Fertilizer + Iron and Micro-Nutrients

WHEN TO APPLY

Four (4) applications of **TURF TRUST®** Lawn Maintenance Fertilizer are recommended for optimal results.
IMPORTANT: Do not apply if the soil and grass are frozen.

- **First Application: Early spring (March) Apply early to encourage a thick lawn**
- **Second Application: Early June**
- **Third Application: Early September**
- **Fourth Application: First week of November. This feeding is critical to stimulate root system.**

Note: The minimum interval between applications of **TURF TRUST®** is 8-10 weeks.

PRODUCT DETAILS

TURF TRUST® contains a unique combination of the essential macro, secondary and micronutrients necessary for a beautiful lawn.
TURF TRUST® contains 5 sources of nitrogen; Urea, Methylene Urea, Ammonium Sulfate, Polymer Coated Urea and Polymer Sulfur-Coated Urea.
TURF TRUST® includes slow-release nitrogen, which is a primary source of Water Insoluble Nitrogen (WIN).
TURF TRUST® includes controlled, slow-release nitrogen and stabilized nitrogen to reduce nitrogen loss and retain nutrients in the soil longer.
TURF TRUST® slowly and gently, "spoon feeds" your lawn. The result is beautiful turf without excessive growth.
TURF TRUST® has controlled release nitrogen and a low salt index.
This bag of **TURF TRUST®** will feed a 10,000 square foot lawn at the recommended rate of 3.2 lbs. of **TURF TRUST®** per 1,000 square feet of lawn.
Feeding **TURF TRUST®** at this rate supplies 0.744 lbs. of Nitrogen per 1,000 square feet.

HOW TO USE

For Best Results, Follow These Simple Instructions:

- Cut lawn before applying **TURF TRUST®**
Note: Pro Trust Products recommends bagging clippings and raking leaves and other lawn debris before application. This helps **TURF TRUST®** Lawn Maintenance granules reach the soil surface.
- To receive the maximum benefits of controlled release formulation of **TURF TRUST®**, Pro Trust, LLC recommends using a broadcast spreader. Drop spreaders can grind the granules of **TURF TRUST®**, reducing the feeding time frame.
- Use the table and instructions below to adjust your broadcast spreader to apply **TURF TRUST®** at the recommended rate.
- Apply **TURF TRUST®** along the perimeter of the lawn first.
- Then apply to the balance of the lawn, working parallel, North-South or East-West. Stop the flow of **TURF TRUST®** at the end of each pass.
- Move over approximately 5 - 6 feet.
- Align the next pass so that the edge of the fertilizer broadcast pattern allows **TURF TRUST®** to land just at the wheel track of the previous pass.
- Any **TURF TRUST®** that lands on an impervious surface should be swept or blown back into the lawn to reduce nutrient run-off.
- Store **TURF TRUST®** in a cool, dry place, keeping the original bag tightly closed.

Caution: Do not apply near surface water, stormdrains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn, and sweep any product that lands on the sidewalk, driveway, or street back onto your lawn.

In the state of MD, NH, NJ, and VA DO NOT exceed recommended rates.

Suggested Spreader Settings		
Spreader Model	Width of Coverage	Setting
Spyker	8ft	4
Scotts Speedy Green	8ft	5
Earthway	8ft	12

If your spreader is not listed here, you can easily adjust your broadcast spreader to apply **TURF TRUST®** at the recommended rate of 3.2 lbs. per 1,000 sq. ft. Adjust your spreader so the openings in the bottom of the hopper measure slightly more than 1/4 (.25) inch at its widest point

Note: Above spreader settings are approximate. The condition of your spreader, your pace during application and lawn terrain will affect the application rate. Detailed application instructions are available at www.protrustproducts.com

Warm season grasses (i.e. Zoysia, Bermuda Grass) should only be fertilized once per year. Early June is the ideal time for this application.

Notice: **TURF TRUST®**'s controlled, slow-release, and stabilized nitrogen formulation helps protect the environment by reducing nutrient run-off. You can help by promptly sweeping or blowing **TURF TRUST®** off of impervious surfaces back onto your lawn.

WARNING - KEEP OUT OF THE REACH OF CHILDREN

Causes eye irritation. Causes skin irritation. Harmful if inhaled. Harmful if swallowed. Wear protective gloves and other clothing to prevent exposure. Wash thoroughly after handling. Avoid breathing dust. Use only outdoors or in a well-ventilated area. Keep container tightly closed. **IF ON SKIN:** Wash with plenty of water. Take off contaminated clothing and wash before reuse. If skin irritation occurs, get medical advice/attention. **IF IN EYES:** Rinse cautiously, with plenty of water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention. **IF INHALED:** Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell. If medical advice is needed, have product container or label at hand. Dispose of contents by utilizing as directed on this label, or call your local solid waste agency for disposal instructions. Dispose of empty container, out of reach of children. Storage: Store in original container, out of reach of children.
