**Woodruff Electric will be closed
on Thursday, December 24,
and Friday, December 25,
for the Christmas Holidays.**

**We will also be closed Friday,
January 1, for New Year's Day.**

Holiday card contest winner announced

Congratulations to 11-year-old Lexi K., who created the winning design for the 2020 WECC Holiday Card!

Lexi, a student at McCrory Elementary, received a \$50 gift card for being selected as this year's winner.

This holiday card will be mailed to friends of Woodruff Electric,

legislators and businesses across our area.

Thank you to all the area students who sent in their pictures. We had many great pieces of artwork submitted this year.

Pictured are Lexi's winning entry and her acceptance of the gift card from Teddy Little, Augusta District Manager.

GIFT GUIDE

Give the gift of safety!

Portable Ground Fault Circuit Interrupter (GFCI)

Designed for locations where there is not a permanent GFCI installed, these devices detect an abnormal flow of electricity and shut off the power, preventing shock or electrocution.

Outdoor Remote Control Outlet Switch

Leaving outdoor lighting on overnight can be costly and pose a potential hazard. An alternative to smart lights, this remote control switch allows you to turn outdoor lights or other gadgets on or off remotely.

Tamper Resistant Outlets (TROs)

Great for families with small children, TROs are wall receptacles that have shutters that stay closed unless a plug with two prongs is inserted into the outlet. Because they help keep children safe, the National Electrical Code requires TROs in new homes and apartments.

Heavy Duty Extension Cord

Power devices safely. Too often the tools or equipment necessary for larger projects are powered by extension cords that are inadequate for the environment or heavier electrical load.
