Would it be easier for you to make daily, weekly, or biweekly Payments rather than one large payment each month? Woodruff Electric is excited to offer another way to pay your electric bill through the WECC Prepay Program! Prepay Program is a new prepay billing service that allows members to pay for electricity how and when you choose. Purchasing electricity before you use it means that you control your budget and pay how much you want, when you want. And there are no security deposits or late fees. Instead of a monthly billing statement, your usage and balance are calculated daily.

Prepay works best for people who want to take control of their electric accounts and energy usage. By monitoring consumption on a regular basis, you will notice patterns in your day-to-day usage. Any variation from this pattern, such as a house guest or a vacation will become evident as you monitor your account. Monitoring and controlling daily usage can help keep those electrical costs down.

CAN EXISTING MEMBERS SWITCH TO PREPAY BILLING? Yes. Your existing deposit will be applied to your current account balance, with any remaining amount being applied as a credit to your Prepay account or refunded. Any remaining account balance will be reduced by a percentage of all future payments until it is paid off.

HOW DOES IT WORK? Prepay is a self-managed program. You purchase electricity before you use it. Payments can be made when you want to-online, over the phone, or at your local Woodruff Electric Cooperative office. When your account runs low, you will get an alert by e-mail or text message, letting you know it's time to pay on your account.

WHAT IF MY ACCOUNT RUNS OUT? If funds in your account run out, your electrical service will be automatically disconnected. You will be notified by e-mail that your service has been cut off. You can purchase more power online or by phone 24 hours a day, 7 days a week. Your power will be restored within minutes and you won't be charged a reconnection fee.

HOW MUCH MONEY SHOULD I KEEP IN MY ACCOUNT? It's up to you! Buy energy to last for a few days or several months!
