

## SIGN UP FOR OUR NEW PREPAY PROGRAM

What if paying your electric bill was like buying gas for your vehicle?

### NOW IT CAN BE!

- ✓ CHOOSE YOUR OWN PAYMENT SCHEDULE
- ✓ PURCHASE ELECTRICITY WHEN CONVENIENT
- ✓ MONITOR ELECTRICAL USAGE
- ✓ CUSTOMIZE THE PLAN THAT IS BEST FOR YOU
- ✓ NO DEPOSITS, NO LATE FEES AND NO MONTHLY BILLS
- ✓ YOU CONTROL YOUR ELECTRICITY BUDGET

**Would it be easier for you to make daily, weekly, or biweekly Payments rather than one large payment each month?** WECC is excited to offer another way to pay your electric bill through the WE EZPay Program!  
**Can existing members switch to prepay billing?** Yes. Your existing deposit will be applied to your current account balance, with any remaining amount being applied as a credit to your Prepay account or refunded.  
**How does it work?** Prepay is a self-managed program. You purchase electricity before you use it. Payments can be made when you want to – online, over the phone, or at your local WECC office.

**What if my account runs out?** If funds in your account run out, your electrical service will automatically be disconnected. You will be notified by e-mail or text message that your service has been cut off. You can purchase more power online or by phone 24 hours a day, 7 days a week. Your power will be restored within minutes, and you won't be charged a reconnection fee.

**How much money should I keep in my account?** It's up to you! You may buy energy to last for a few days or several months!

## HOW AMERICANS USE ELECTRICITY

The latest data from the U.S. Energy Information Administration shows the combined use of clothes washers and dryers, dishwashers, small appliances and other electrical equipment (noted as "all other uses") accounts for the largest percentage of electricity consumption in American homes.

Source: Energy Information Administration 2021. (1) Includes consumption for heat and operating furnace fans and boiler pumps. (2) Includes miscellaneous appliances, clothes washers and dryers, stoves, dishwashers, heating elements and motors.

# HAPPY 4<sup>TH</sup> of JULY

## FIREWORKS SAFETY TIPS

Fireworks and the Fourth of July go hand-in-hand, and we want you to have a safe, fun-filled celebration, so keep these safety tips in mind:

- ★ Always follow the instructions on fireworks' packaging, and never give them to small children.
- ★ Keep a supply of water close by as a precaution.
- ★ Make sure to wear protective eyewear when lighting fireworks.
- ★ Light only one firework at a time, and never attempt to relight a "dud."
- ★ Store fireworks in a cool, dry place away from children and pets.

## ENERGY EFFICIENCY

Did you know the combined use of large appliances like dishwashers, clothes dryers and washing machines account for the largest percentage of electricity use in the average U.S. home? Take small steps to save energy when using these appliances. Only run full loads in the dishwasher, and thoroughly scrape food from dishes before loading. Dry towels and heavier cottons separate from lighter-weight clothing, and clean the lint screen after every use. Wash clothing in cold water to save energy used to heat water.
