The one ministry that has defined me, as much as any other ministry in my life, is the Ministry of Church on the Rock... I believe we have through that Ministry created a prototype for the future... ..I believe you're called to unlock the wealth of the world. I believe you're called to unlock the wealth in this nation, and I don't mean just physical, material wealth—I mean the wealth that is stored in the Kingdom of God in this land. ...I have been so excited how you have taken the helm and actually gotten in and led this nation in this past couple of seasons in the prayer movement... ..You have created a model of what a Kingdom Church needs to look like... ..All I can say is, may you prosper and may you lead us into a new level of prosperity...

For the Lord would say I have given you nations, I've given you the wealth of the nations, and there is wealth in every nation to do what I've sent you to do to those places. The Lord said wealth, wealth, wealth is your portion. This new apostolic mantle to create prayer teams that know how to see wealth created is something that I'm going to give you the pattern for. So the Lord would say, even today it's going to begin to come into your spirit to create these prayer teams that know how to create wealth. In Jesus Name

Standing here today I just see Oklahoma... ..I declare over you today there is a fresh fire that is burning in Oklahoma. I say to Apostle John Benefiel, you are standing looking even as Joshua looked at the promise that the Lord had given him, God says you are standing looking at the promise. Even there are those who do not want to go with you, God said I'm releasing the spirit of Caleb on a people in this hour. God says, those with that Caleb anointing are going to rise up in this hour rather than shrinking back, they are going to say "give me my mountain!" I say over this church, you are going to be part of this Caleb company that God is raising up. I see Apostle John Benefiel and Pastor Rhett just like Elijah and Elisha and I say there is a double portion anointing that is coming upon you and upon this congregation. God says your days of mourning over the past are over. They are over and God said I am breaking off of you all of the dregs of death and disappointment from the last season. I say not everybody wanted to go with you, but I say there are those that are rising up in this hour and just like it was with Ruth and Naomi they are saying "wherever you go I'm going with you". They're saying, "their God will be my God". I'm not staying in an old place but I'm rising up and I'm going for the promise of the Lord. God wants to encourage you today that Oklahoma is rising up in a new way and a fresh fire is burning in this land. God says be a people with a Caleb spirit, catch the fire and obtain the mountain God has promised you.

Can I just talk to you a little bit prophetically? I'm part of your family, yes, I might be the crazy uncle, but I'm still connected. What I saw while we were worshipping, prophetically, is very interesting. I saw the tip of an iceberg, but I saw this huge, massive iceberg underneath the water. I felt like I knew instantly that I was looking at Church on the Rock and the Sunday morning, the church itself is just the tip of the iceberg. I would just say this if you are watching online or if you are new to the church – you're just getting familiar, this experience this morning and on Sundays is just the tip of the iceberg of what God is doing here. One of the reasons I come is because there is a whole lot more to this movement than what meets the eye. It's an honor for me to be connected, everybody say connected, to be connected to this movement that has such massive - and I hear the Lord saying "You haven't seen anything yet." Even in terms of it's the tip of the iceberg, even sometimes what we can see, God has so much more underneath the surface, or if you will behind the scenes. But I do see this as a great apostolic movement, and I know something about the apostolic movement. That's been a subject that I've been fascinated with since 1991. This is an apostolic movement, this is an apostolic church but here's the other thing that I saw in my spirit, I saw that iceberg – the tip of it showing but above the iceberg of this movement, and of this house, and this church was a pillar of fire. When I saw that I immediately thought about the word "covering". I do want to say to you this is a great place for you to be covered and connected. So if you are thinking, now should I be a part of this house, or should I connect, my answer would be – you need to get connected. Because when you connect to something that is covered you come under a covering, there is a benefit for you. I heard a Rabbi say not long ago that the issue of covering started in the wilderness when the pillar of fire was there by night and the pillar of cloud by day. It kept God's people cool in the heat of the day and it kept them warm, and that pillar of fire repelled all the wild animals of the desert which would have destroyed God's people when they were journeying. Now how many of you are on a journey? Sometimes it feels like you're in a desert. We need the fire of God's presence to cover us and drive off all the craziness that is all around us as we walk this journey. So, I just want to say as a part of you, because I do consider this a connection that is so important, get covered and get connected and realize that you are blessed as you are connected to this house. Now there's one other thing, I want to say this really quick, because it may not interest everybody here, but I believe it will interest Apostle John. The other thing I saw in that iceberg that was floating and that pillar of fire over it, was I saw other icebergs beginning to align with it. I noticed where people that were lost in the water were able to jump up on the iceberg and they were finding refuge. They were finding covering. The Church on the Rock and the apostolic prayer network, that whole thing that you do which is that big iceberg, everything included in this church, I saw also other icebergs and I heard the word alliance. I do believe God is bringing new alliances so there will be other movements that God wants to bring and join and even connect. We can talk about this maybe more a little bit later. I'm not sure everybody here is interested in that except that for me to say that connection is a big, big deal right now. What your church is talking about is not just cleaning up its membership role, it's time to get connected and it's time to be covered and it's time to appreciate and understand that what we are seeing is just the tip of the iceberg that God is purposed as an instrument of His to save people and change the destiny of nations and also that He is bringing alignment with other movements in this hour. I believe that God is going to float a continent of blessing, that God is creating a brand-new end time thing, that He is doing and you and I are a part of it. Can you and I say Hallelujah! Everybody say connected.

You ain't seen nothing yet.
