

**We Need Your Help More Than Ever This Year!**  
**2021-2022 ANNUAL FUNDRAISING GOAL: \$50,000**

Dear Friends and Relatives,

August 2021

It has been a challenging few years for us all. Since the onset of the pandemic I shared that “being a good relative” is a core value that has been guiding our work and decision making at CH. Despite having to reimagine our work, this summer College Horizons successfully served 200 Indigenous students, 100 admission counselors from 60 colleges/universities and 20 high school counselors across 6 time zones in 12 online classrooms! We also offered a remote Scholars Program serving 39 college students, professors, and interns in our first-year to college summer bridge and Indigenous Research Methodology courses. As we look to 2022, we see an increased need for students to access at-home devices and a quality internet connection in order to complete schoolwork and apply to college. With your help we can ensure students have adequate access to technology and support families who have been impacted by the pandemic, economic insecurity, and school closures. Our interdependence as relatives is the source of our strength – help us take care of one another.

Wishing you well, Carmen Lopez, Executive Director, Navajo Nation

**GIVING LEVELS**

**Horizons Giving Circle** is based upon the logo/design of our organization. Indigenous peoples around the world have used the Sun and Moon as a way to prepare for seasonal change and ceremonial planning. The cycle of the day is the inspiration for the color selection of the CH/GH logos.

**CommUnity Giving** is a recurring monthly gift that will automatically charge a credit/debit card. Sustaining support

**Native Scholars Society** is based on the higher education journey. College Horizons represents dawn, the beginning of the college experience. Graduate Horizons represents dusk, the next stage, the graduate/professional school experience. Many indigenous cultures have respect for various moments of the day. The Pueblo, Hopi and Navajo, for example, provide corn meal/corn pollen offerings at dawn for a new day and a good life for all. At dusk, in traditional Hawaiian culture, the people observed the end of the day to predict the next day’s/weeks weather.
